Walking route

→ **4.7 km**

Start- and endpoint

Schaapskooiweg , 6414 EL
Heerlen, Limburg

Level of difficulty

Makkelijk

This route of Natuurmonumenten takes you through the beautiful area of the Brunssummerheide. The Roode Beek flows in the heart of the versatile Brunssummerheide. In the source area of this iron-rich stream, raised moor occurs and the heaths alternate with fens and distant views with dense, green mossy groves. This walking route goes through a unique piece of nature in an environment that is picturesque in itself. You don't need the black posts with light blue straps, but to follow. You can park at the information center of the Brunsummerheide, where you can also go for a cup of coffee.
