Fietsroute Langs buitengoederen vol verhalen

Cycle route
45.9 km

Start- and endpoint
P&R Station Maastricht Noord

Level of difficulty
Gemiddeld

In the Buitengoed Paradijstuinen you can taste paradise, in parks and gardens that are well hidden in a green landscape. Here wandering is just as much fun as getting lost, you are tempted to doze off and are invited to play and even work. From a castle garden to a landscape park and from an English garden to a French baroque garden, every Garden of Paradise has its own surprises. You can discover them all on your bike. The route of more than 45 km can be followed via the junction system and can be divided into two loops. This is therefore very suitable for children. Along the way you will come across some nice stops, where the children can easily spend a few hours.
