

Wandelroute Gulpen-Wittem - Door het Gulpdal bij Heijenrath

 **Walking route**
→ **4.2 km**

Start- and endpoint
Grote Bosweg in Heijenrath

Level of difficulty
Gemiddeld

The sloped forests near Slenaken, in the middle of the Gulpdal, are indispensable for walkers in Limburg. This walking route of about 4 kilometers is not too difficult, but in terms of environment it is not inferior to more challenging routes. North of Heijenrath you can make a tour through the South Limburg hills, where you will see all kinds of nature. The landscape of the Gulp has many faces: a fascinating alternation of deciduous forests, grasslands, fields, swampy banks, pools, orchards and sunken roads. Parking is possible at restaurant Gerardushoeve in Heijenrath. For this route, keep to the red posts.
