Fietsen door Romeins Simpelveld en Voerendaal

Cycle route
52.3 km

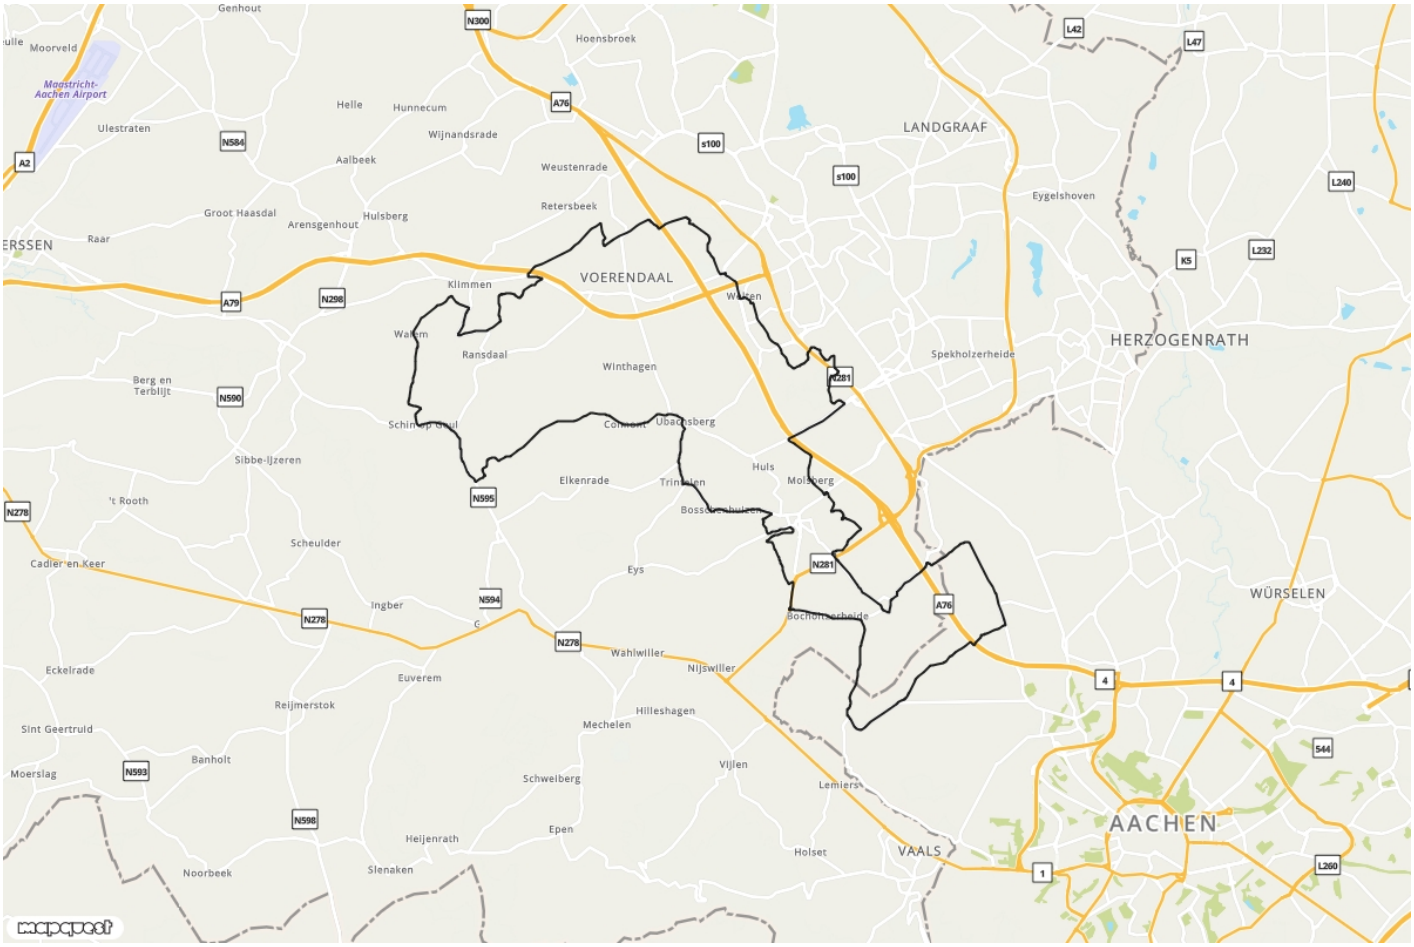

Start- and endpoint
Station Miljoenenlijn, Stationstraat 22

Level of difficulty
Gemiddeld

The villages of Simpelveld and Voerendaal have a two-thousand-year-old history. The numerous archaeological treasures are really impressive: some rank among the most important findings in The Netherlands and provide an exceptional insight into the Roman activities in these areas. This route takes you along Roman roads, following paths that would have been walked on by Centurions, over two thousand years ago.
