Hoogtewandeling Valkenburg aan de Geul

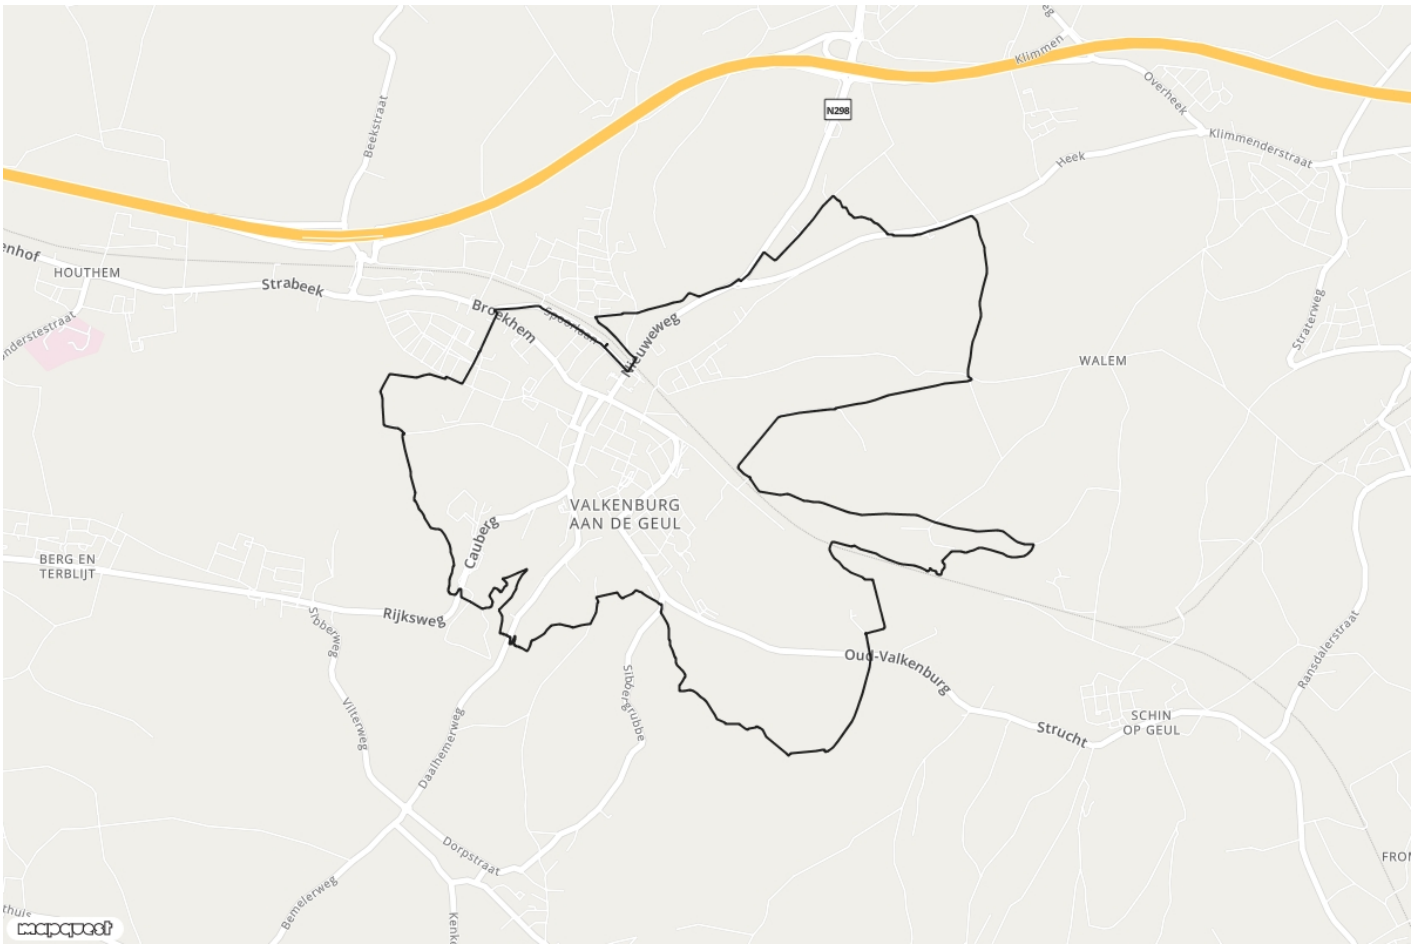

Walking route
15.9 km

Start- and endpoint
Station Valkenburg aan de Geul

Level of difficulty
Heel moeilijk

This walking route has been compiled in collaboration with the Niks Aan De Hand working group and uses existing routes and paths in and around Valkenburg. The Height Walk is an extensive, tough walking route for sporty hikers who want to see all the highlights of the town: the city gates and the castle ruins, De Valkenier amusement park and the Mystery House, the Sint Jansbron and the marl steep walls... We could go on like this for a while!
If you conclude the route at the Wilhelminatoren, you can drink your well-earned drink with a view of the entire town and all the beautiful highlights that you admired that afternoon. The route is not signposted.
