On this short, but beautiful walking route you can see the beautiful nature around Sint Gerlach. From picturesque Sint Gerlach it is barely a few steps to the breathtakingly beautiful valley of the Geul. It is unbelievable how much special you will encounter on this small part: the noble castle of St. Gerlach, the tunnel system of the Geulhemmer quarry and the striking St. Ronald McDonald Kindervallei. This colorful fairytale building is an architectural marvel by the Viennese architect Hundertwasser. You follow this enchanting walking route via the yellow posts. Parking is possible in Houthem, but this beautiful area is also easily accessible by train.
