Meerssen is an incredibly beautiful village with a breathtaking basilica, a lovely Proosdij park and a paradise for nature lovers south of this town. The M4 walking route takes you to the marl-rich Curfs quarry, with the sublime ruin of the lime kiln that once again becomes one with the landscape. If you walk further, you will come to the shady hillside forests, where the tall trees grow and the blue-shining meadow damselflies dance over the streams. If you walk further to the grassy pastures, you may see a herd of Galloway cattle grazing peacefully. You follow this beautiful nature walk via the green posts.
