The most beautiful blossoms bloom in fruit trees, especially in the standard trees that are in full bloom in April and May in the Mesch area. In this very southern tip of South Limburg, it is the apple and pear trees that show their most beautiful side in the spring. If you climb the nine-meter high observation tower of Mesch, you have the best view of this vast tapestry of white and soft pink flowers. You start this walking route in Mesch, where you can easily park the car and drink delicious coffee. Follow the blue posts and you will automatically find the beauty of this blossoming region.
