Parkstad Brunssummerheide MTB-route

View on your smartphone

Mountain bike route
18.4 km

Start- and endpoint
Schaapskooiweg 99, 6414 EL Heerlen, Netherlands

Level of difficulty
Moeilijk

The Brunssummerheide nature reserve is a wonderful place to relax, get some fresh air, and mountain bike. This versatile area has something for everyone: glistening sand plains, dense forests, calm frog pools and – especially in summer – a beautiful, endless, purple coloured, rolling landscape, covered with blooming heath. The paths are mostly sandy, sometimes sloping and always challenging. We kindly request to stay on the paths, as to protect both nature and walkers. You start this beautiful route at the catering facility, where you can also enjoy a delicious meal afterwards. You follow this mountain bike route via the wooden posts with yellow/black plates and the international MTB-sign.
