With the Mosaqua swimming paradise, this walking route starts in the most sporty part of the energetic hill town of Gulpen, where you can also park your car.

From the foot of the Gulperberg you follow the sparkling brook De Gulp through the vast green landscape to the charming hamlets of Euverem and Pesaken. Along the way you pass the stately Neubourg Castle and the historic Neubourger Mill, which is still in use today.

You follow this route via the white/grey posts and markings. Back in Gulpen you can of course pay a visit to the exciting center, for example for a delicious cup of coffee with a slice of pie on the sunny terrace of brasserie De Kroon.
