The town of Meerssen is a place full of lively history, authentic culture and special buildings. You will find the incredibly beautiful and richly decorated basilica of the Blessed Sacrament, the showpiece of the Maas Gothic. The main historical events are the blood miracle and the burn miracle. Curious about the stories or want to take a look inside? View the 360-degree tour. The tour is also accessible by scanning the qr code on the facade sign at the basilica. The Proosdijpark, the centuries-old Groote Molen and the graceful bronze relief on the Markt are also worth a visit. The walking route M3 takes you via the green posts to the nature reserve east of Meerssen: the Kloosterbosch.
