Attention train lovers! The traditional South Limburg railway De Miljoenenlijn, which runs from Kerkrade to Valkenburg, is almost a hundred years old and is still in use a few times a few months by the South Limburg Stoomtrein Maatschappij, which still runs real authentic steam trains on this track. .

In the village of Simpelveld you can wander around in the atmosphere of that period in the freely accessible heritage park, where this walking route passes right by via the green posts.

Parking is easy in Simpelveld and is possible, for example, at the Nature Transferium. For a delicious cup of coffee you can go to the cozy center.
