Parkstad Landgraaf Combinatietraject MTB-route

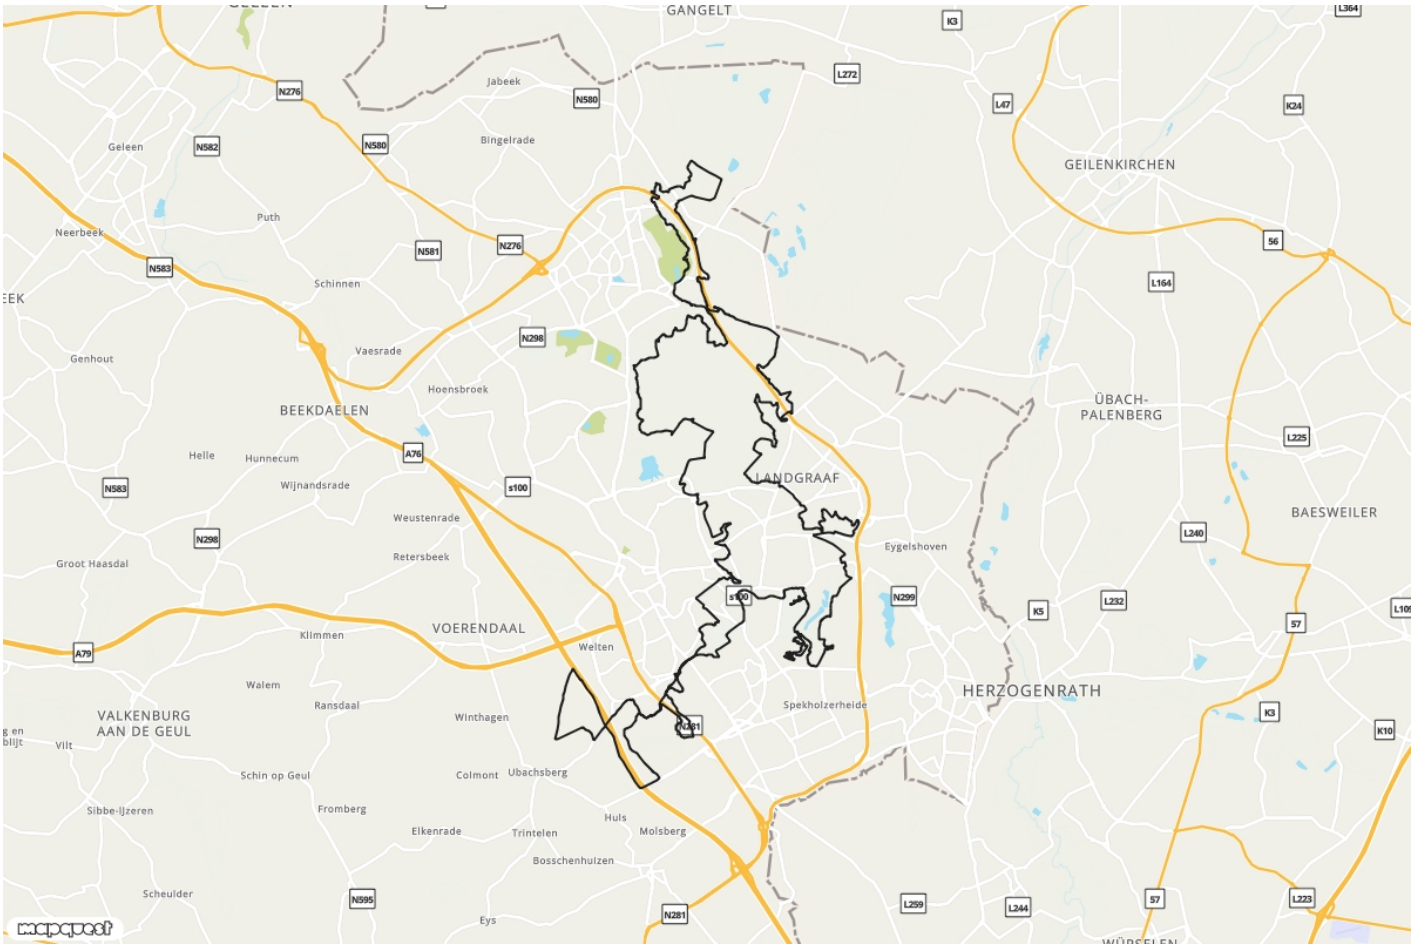

Mountain bike route
74.4 km

Start- and endpoint
Hofstraat , 6372 Landgraaf, Netherlands

Level of difficulty
Heel moeilijk

Four spectacular mountain bike routes put together in one, that is the Parkstad Combination Trail! Throughout Zuid-Limburg there is an extensive network of signposted, and interconnected mountain bike routes. The MTB-route Parkstad Combination Trail connects four of those varied routes: a real challenge for mountain bike fanatics. In one afternoon, you can climb the steep slopes of the Kunderberg and Wilhelminaberg and ride from the dense Imstenrade Forest (Imstenraderbos) to the rugged landscape of the Brunssummerheide nature reserve. Of course, you can also ride the four loops separately. This combination trail starts at the Strijthagen gym, in Landgraaf (Hofstraat 7).
