The Geuldal is full of surprises and is therefore crossed by a number of hiking routes. Be guided by the fast-flowing Geul itself and be amazed by the idyllic landscape. You start in the meadows of Stokhem, a small South Limburg hamlet. You will see all kinds of vegetation, such as forest paths, graves, steep slopes and open meadows. The Brand Bierbrouwerij is a stone's throw away, as is Wijlre Castle. In Wijlre there are several catering establishments and parking options. The route can be followed via the yellow posts.
