# Brunssummerheide Geel NM7 Brunssum

## 🔥 Walking route

--→ 2.3 km

### Start- and endpoint

Schaapskooiweg 99, 6414 EL Heerlen

#### Level of difficulty Makkelijk

Walk this easily accessible walking route four times a year, and you will experience the beautiful Brunssummerheide four times in a completely different way! With its fens, forests and sandy plains, the Brunssummerheide is already a wonderfully versatile nature reserve, but because it dresses itself in different colors every season, you can continue to enjoy it. See the fresh green and yellow celandine sprout in the spring, marvel at the endless purple heather in the summer, marvel at the fiery orange fall colors or get a quick breath of fresh air and a warm waffle at the Visitor Center in the winter . Only the yellow posts remain the same.
