Gulpen is one of the nicest places in South Limburg, with a bustling center, sporting activities and a beautiful location between the rolling hills with waving grass.

On this short but powerful walking route you have a fantastic view of the Gulperberg with its fields, hedges and rural roads.

You start opposite the characteristic statue of the Virgin Mary and follow the green posts. If you feel like drinking a fresh beer from the region on a sunny terrace in between, the center of Gulpen is the right place for that.
