When you're at the top of Huls, the most impressive hill in Simpelveld, don't forget to look back – the view over the village is spectacular! This walking route then takes you to the farming hamlet of Bosschenhuizen and guides you through the rolling fields and the waving grass. Hollow roads, crossroads, all the typical South Limburg views are shown from their most beautiful side on this walking route via the black posts. You can park well at De Huls and you will also find a cozy cafe to enjoy a cup of coffee.
