This is not one to rack up the miles, but it is one to feast your eyes on. Start your route in the Visit South Limburg Experience in the heart of Valkenburg and get to know the old fortified city and the only high-rise castle in the Netherlands! During this walking route you will discover all the major and minor highlights, such as the oldest (still in use) station in the Netherlands, but also romantic streets that lead to old city gates and dancing fountains along the medieval city walls. A great start to many hiking adventures in Valkenburg...
