Inclusieroute 'Het Mijnverleden op straat'

Walking route
2.0 km

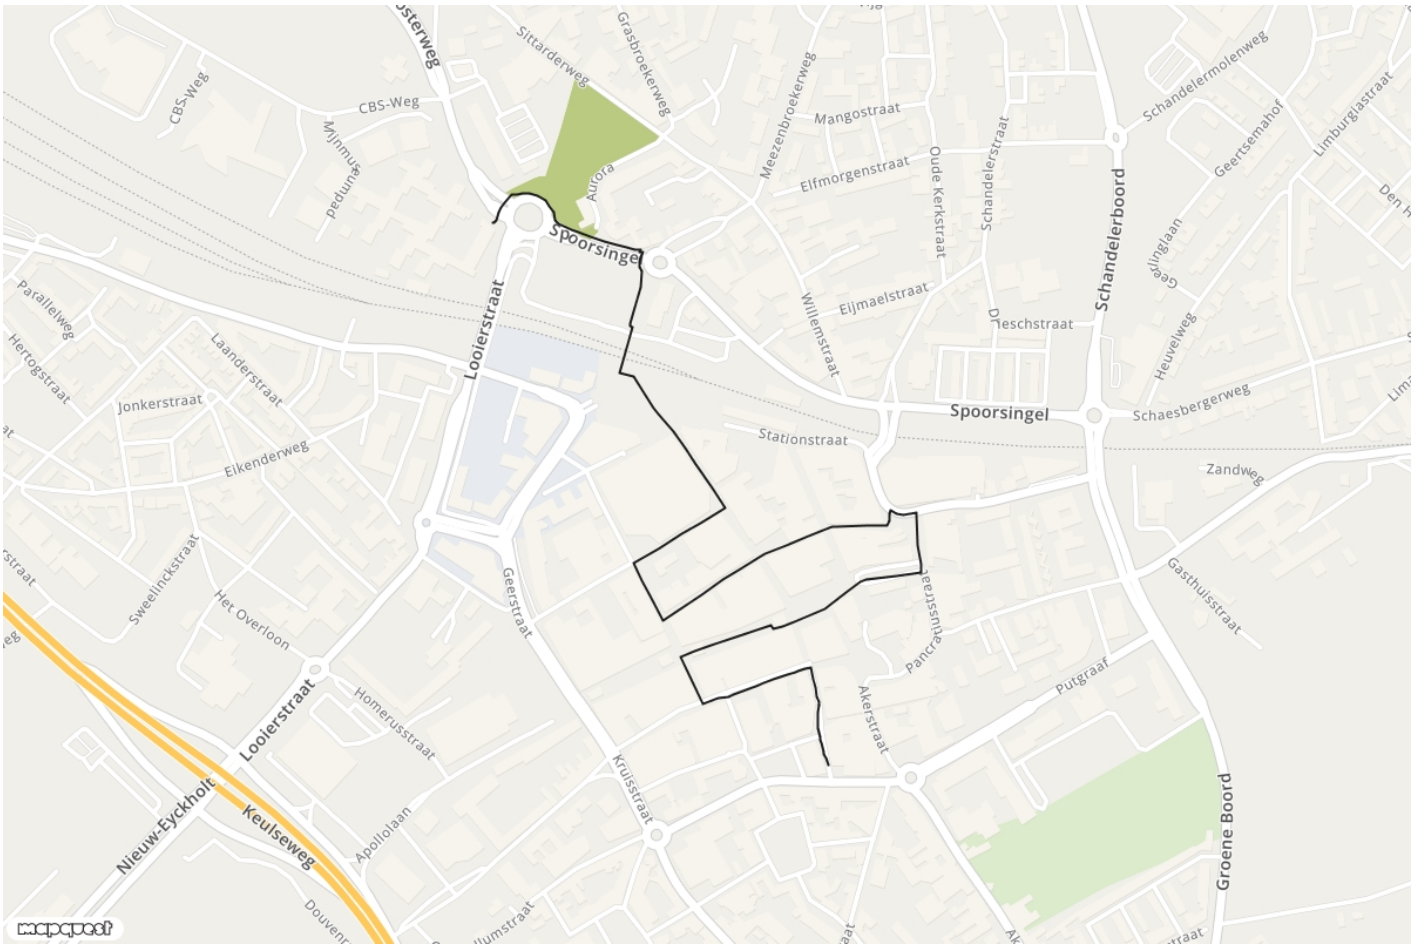

Start- and endpoint
Doctor Poelsstraat 29 te Heerlen

Level of difficulty
Heel makkelijk

This 2 km inclusion route has been specially developed for wheelchair users, the blind and visually impaired. Download the audio guide here to follow the route via audio fragments. This way you can enjoy the typical features of the city, even with a disability. If you are visually impaired or if you have difficulty reading for another reason, you can use the audio route of the Heerlens Mijnverleden on the street and listen to the audio fragments along the way.
The route is based on the walking route 'The mining past on the street', which is available through our webshop.

The city of Heerlen was the center of the former mining region.
