

# Wandelroute Eijsden-Margraten - Bloesemroute Mesch

 **Walking route**  
→→ **4.5 km**

**Start- and endpoint**  
Langstraat / Heiweg in Mesch

**Level of difficulty**  
Gemiddeld

The stream de Voer should not be inferior to the well-known Limburg streams the Geul and the Gulp.

The river meanders gently from the beautiful Belgian Voer region over the southernmost border of Limburg to the cute town of Mesch, where you can also park very well.

In April and May, this area sees white and soft pink blossoms in the vast standard orchards, where the apple and pear trees grow. Especially in spring you don't know what you see! Follow the yellow posts and marvel at this breathtaking natural wonder.
