Maasroute Luik - Maastricht

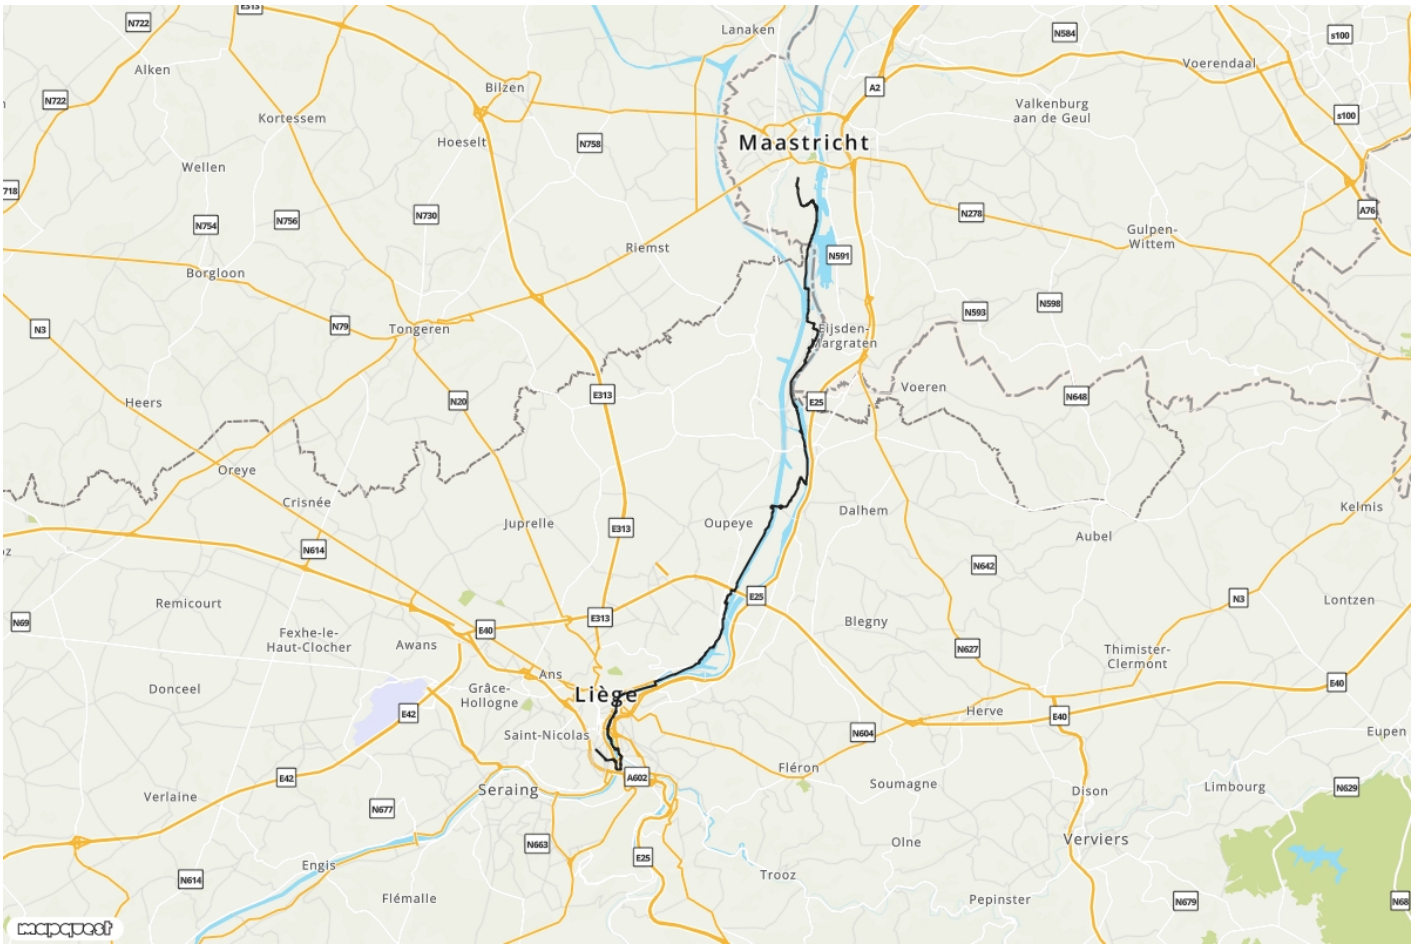

Cycle route
34.0 km

Start- and endpoint
Place des Guillemins 2, 4000 Liège, Liège

Level of difficulty
Makkelijk

Leave the slopes of the Citadel of Liège behind and cycle 34 km towards Maastricht. You only cover part of the Maasroute, but that certainly doesn't make it any less impressive. Cycle through Visé, the border town located on both sides of the Maas. Discover the lock complex of Lanaye and cycle via the Doorsteek van Caestert to the Sint-Pietersberg in Maastricht.
The route is easy to follow thanks to the signage along the way. The route starts at the foot of the Passerelle Saucy footbridge in Liège, in the Quai Edouard van Beneden, on the right bank of the Meuse.
In Maastricht, this route also connects to the Heuvelland Cycle Route towards the Vaalserberg in Vaals.
