Walk from Cadier en Keer in the direction of the cute little town of Gronsvelt and back again. On this route you can see the big city of Maastricht just in the distance, without the walking route getting caught up in the hustle and bustle of the city bustle. You also have a beautiful view of the Sint-Pietersberg and follow the yellow posts along the edges of the ancient Savelsbos with its phenomenal views. In Cadier en Keer there are several catering establishments to drink a nice cup of coffee. You can also park here.
