Dutch Mountain Trail Zuid-Limburg

Walking route
100.0 km

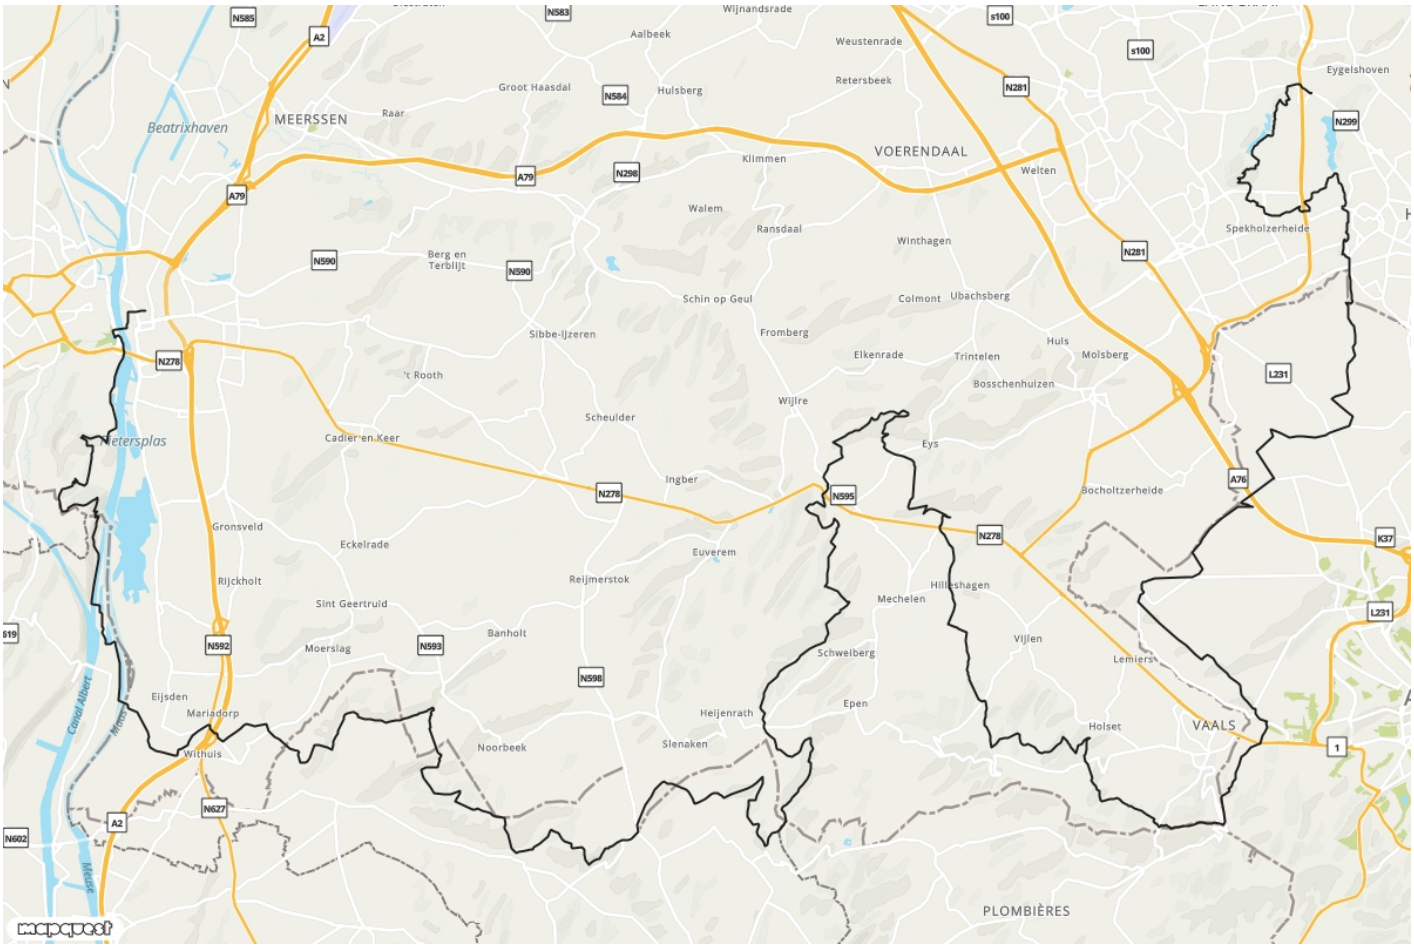

Startpoint
Station Eygelshoven

Endpoint
Station Maastricht

Level of difficulty
Heel moeilijk

On the occasion of the Dutch Mountain Film Festival and entirely in the tradition of the Jubiläumswege in the Alps, the Dutch Mountain Trail has been plotted.
Although it is not the longest, it is certainly the toughest walk in the Netherlands, which may even compete with a serious trek in the real mountains. It is a rugged 101km hike that connects Seven Summits. The route consists of 4 sections and you will see no fewer than 7 mountain peaks.
It runs from Eygelshoven station (Kerkrade) to Maastricht station on a route where the real mountain feeling is never far away.
