Parkstad Heerlen MTB-route

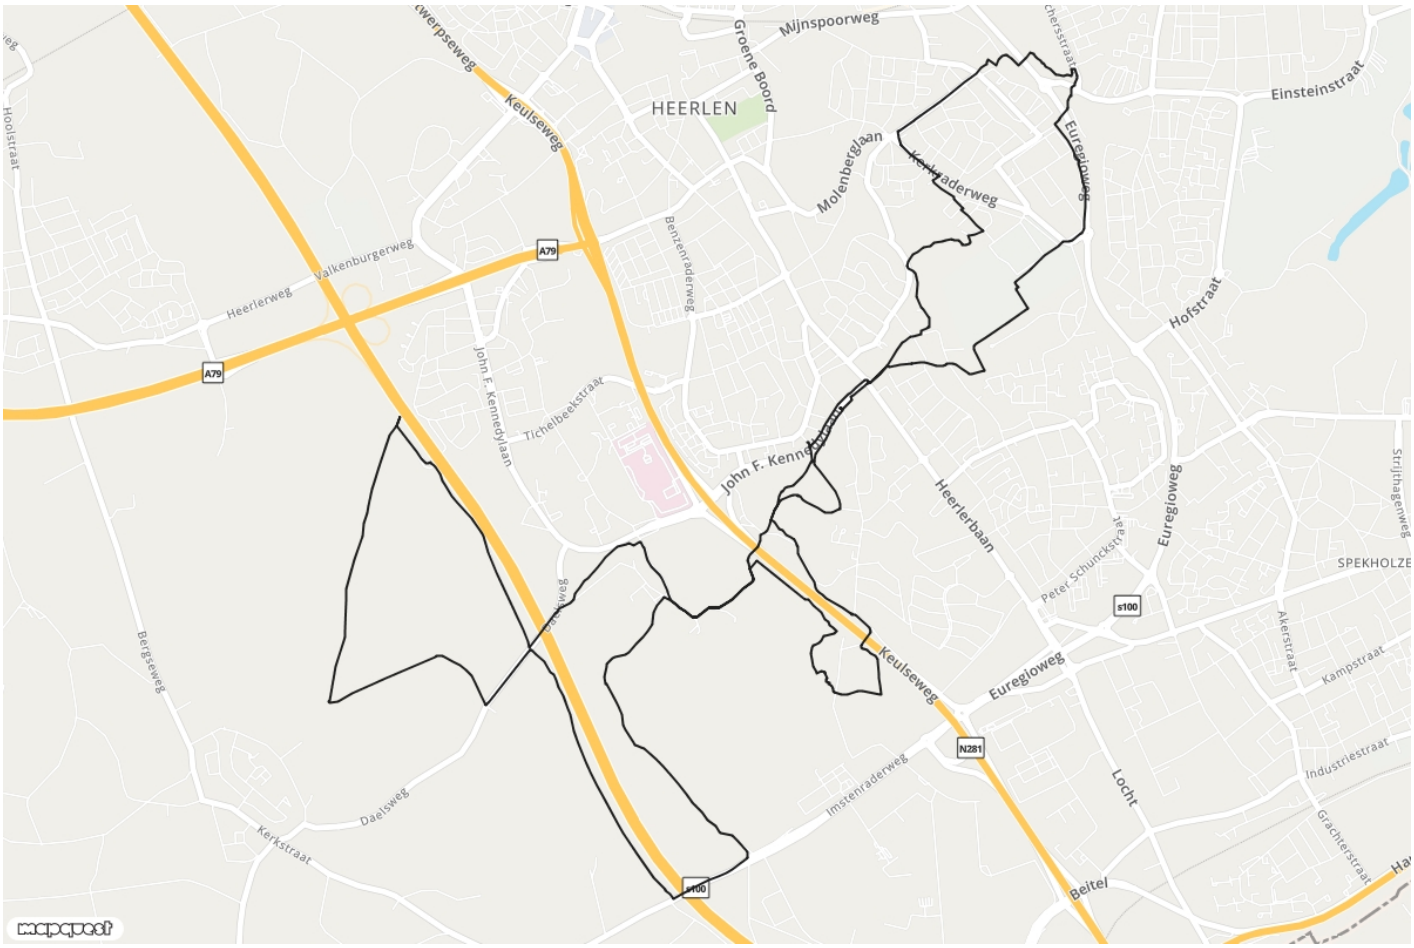

Mountain bike route
21.4 km

Start- and endpoint
Park Strijthagen, Hofstraat 5, Landgraaf

Level of difficulty
Gemiddeld

On the MTB Route Parkstad Heerlen you see both park and city, green panoramas as well as the popular neighbourhoods outside Heerlen's city-centre. The route includes a beautiful flow trail in the unspoilt Imstenrade Forest (Imstenraderbos) and two tough climbs and super-fast descents on the Kunderberg. This mountain bike tour nestles between the route of Parkstad Landgraaf (Strijthagen) and the connecting route Nuth-Voerendaal, which makes it easy to expand your mountain bike experience. Along the way, you will find various catering establishments where you can enjoy a relaxing break and a tasty meal, such as 'Auberge de Rousch'.
