Join us on a journey into the inspiring world of Sjef Hutschemakers. This artist, nature lover and amateur archaeologist saw the treasures the Heuvelland had to offer and felt their value like no other. Put on artist glasses for a moment and you will experience the rolling hills, the idyllic villages and the authentic farm life in Eijsden-Margraten in a new way! The walk starts at the church in Sint Geertruid and leads through the field through the villages Banholt and Mheer back to Sint Geertruid. The route brochure 'The Heuvelland through the eyes of an Artist' tells about the special environment and Sjef's relationship with it at various locations.
