From the old De Winselerhof farm, nowadays used as a hotel and convenient for parking, you walk straight into the beautiful nature reserve between Kerkrade and Landgraaf. In this Strijthagerbeek valley you will find beautiful, densely vegetated slopes and goldveil and field cress along the lovely stream. Here the badger hides, the yellowhammer flies and it is teeming with butterflies. You follow the Strijthagerbeek all the way to the elegant Strijthagen Castle via the red posts with the green band.
