Wat de Maas rond Spaubeek achterliet

Walking route
11.9 km

Start- and endpoint
Op 't veldje 1 in Spaubeek

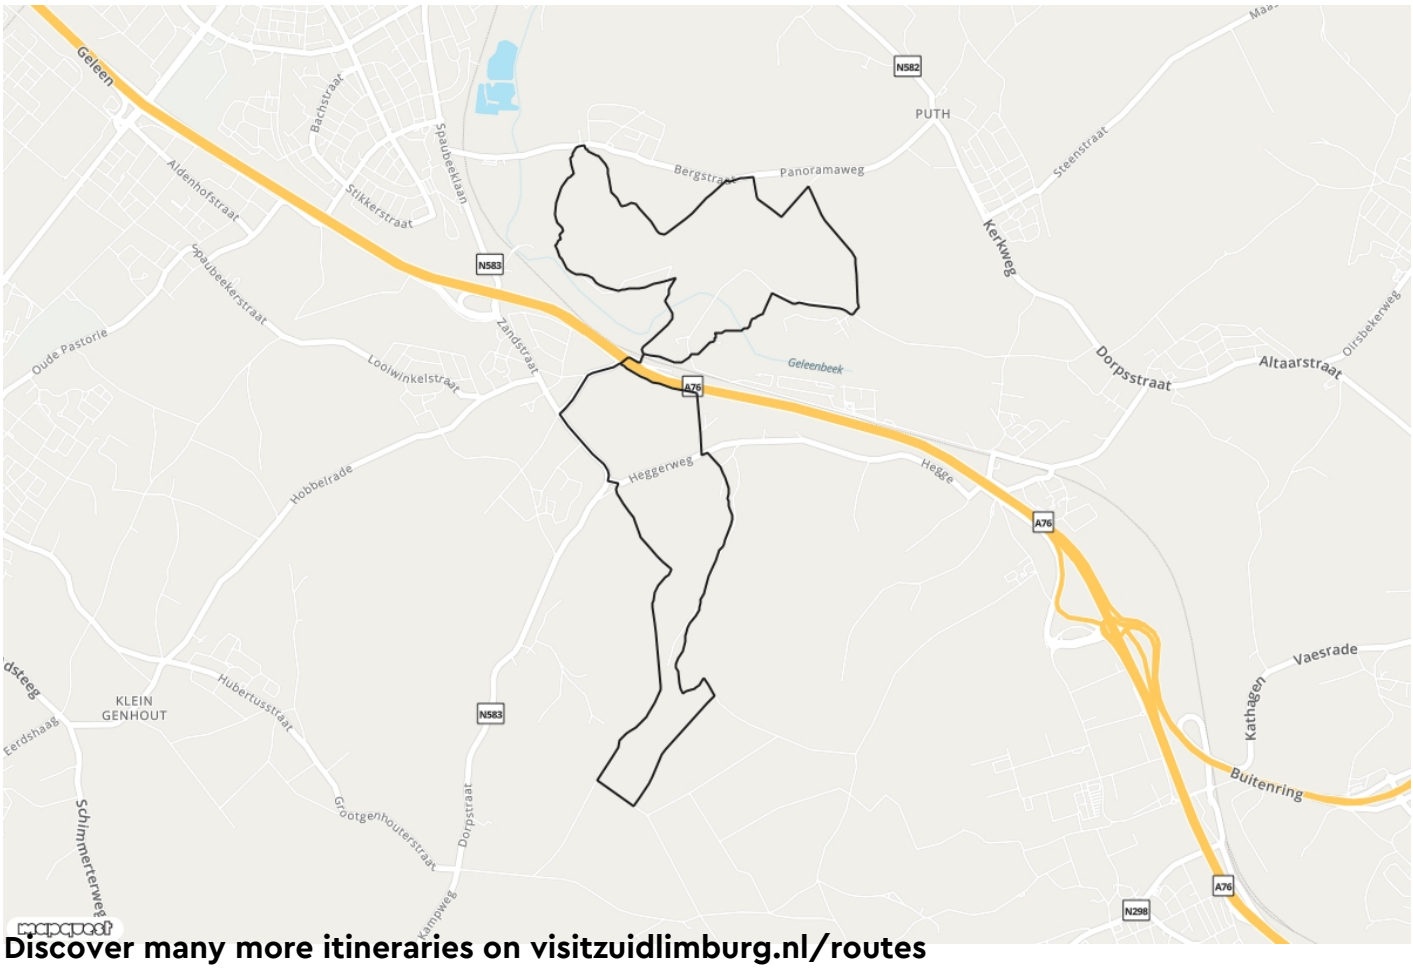

Level of difficulty
Gemiddeld

This geological walk, compiled by IVN Spaubeek, draws your attention as a walker to the diverse landscapes, which are special even for South Limburg. The walk is about 11.5 kilometers long, but you can also walk it as two shorter partial walks (5 and 6 km). The route takes you over a plateau, past graves, old farms, fruit orchards, field crosses and the Geleenbeek. Hollow roads lead you through a green, always surprising landscape. Along the way you have some beautiful views over the terraces. You can park at one of the parking facilities in Spaubeek, Terborgh Castle in Schinnen or at Spaubeek train station. Please note, this route is not signposted.
