

Ommetje Dieteren ES09

 **Walking route**
→ **4.8 km**

Start- and endpoint
Doorderweg, 6114 KW Echt

Level of difficulty
Makkelijk

You can experience the surprising nature north of Dieteren via the Ommetje around Dieteren.

From the Doort you can walk south via the handy knots system. De Doort is perhaps the most important nature reserve in Echt-Susteren. It enjoys national fame for its large tree frog population. This deciduous forest with a number of larger pools is located in a former Maasgeul and therefore has a very richly developed flora and fauna.
