Explore the border of Vaals around the Geuldal during this walking route. You will see all kinds of special natural phenomena, such as the flint deposit at Zevenwegen, the Vaalser green sand and the fast flowing Geul. You make your way through sunken roads and over the South Limburg graves, of which no one knows how they originated. You will also discover the 'spring country' around Vijlen at the start of the route, where you will see small water sources springing from the path.

You can start from the camping Cottesserhoeve, a beautiful spot with parking and a terrace. The route can be followed via the blue posts.
