What could be better than looking high on the back of your horse over the vaulted fields, where the wind rustles through the cornfields while the sun shines on your face?

As a real equestrian community with meadows, riding stables and horse activities, Nuth is the ideal place for such a wonderful ride on the rolling and winding paths of the Limburg countryside.

This route is perfectly passable for both riders and drivers and can easily be extended with a trip to the routes of Schinnen, Onderbanken and Beek.

You start this equestrian route at inn In den Haversack and follow the route signs number 02.
