Klimmen, Netherlands

Level of difficulty

Moeilijk

The railway between Maastricht and Heerlen runs through the rolling landscape between Klimmen, Craubeek and Termaar. This train track is probably one of the most beautiful in our country. For that reason alone, this walking route is highly recommended for train spotters. Moreover, the Climbing Round takes you through a beautiful area with glittering streams and rustling trees. Follow this route via the blue posts. Parking is easy in Klimmen and you can drink your coffee in a special atmosphere on the old Roman estate De Proosdij.
