## Kasteel Neubourg G14 Gulpen-Wittem

## ☆ Walking route → 7.2 km

## **Start- and endpoint** Kampsweg 28, Gulpen

## Level of difficulty Gemiddeld

South of Gulpen you will find the hill country in all its glory. The sunny slopes are covered with wide green fields, broken here and there with hedges and groups of trees, and the lovely Gulp babbles through the valley. In this area you walk along sunken roads, with graceful crosses at the intersections that are reminiscent of the Catholic culture of this region. As if that wasn't enough, in Pesaken you will also see the majestic Neubourg Castle.

The blue posts lead you on this walking route to the endearing hamlets of Euverem, Crapoel and Landsrade. Parking is available at the Mosaqua swimming paradise.
