Level of difficulty

Makkelijk

This route takes you through the beautiful area of the Schinveldse forests, an undiscovered green pearl between Schinveld and the German Selfkant.

Despite its modest length and low difficulty, the route can rightly be called spectacular. Discover it for yourself along the way, for example at Freizeitpark Gangelt and the Gliding Airport.

The route can be followed via the black plastic posts with dark blue ring binder. Parking is possible at restaurant ‘De Lier’, where a cup of coffee is also available.
