

# Maastricht- ma 3 – Sint Pietersberg en ENCI-groeve

 **Walking route**  
→ **10.8 km**

**Start- and endpoint**  
Fort Sint Pieter, Maastricht

**Level of difficulty**  
Moeilijk

The outskirts of Maastricht are without a doubt worth a visit. This route is a long walk through the area of Natuurmonumenten.

You walk around the Sint-Pietersberg where you discover Fort Sint-Pieter (the route does not run through the quarry). It is possible to walk the walk with the dog on a leash. You can walk through the quarry on the yellow (shorter) route, but dogs are not allowed here.

Moreover, you have a beautiful view over the Maas. The ENCI quarry is still in full development: you will see activity, but also beautiful nature. An absolute must for a walk near Maastricht.

The route starts at Fort Sint-Pieter and you can park your car at the Eye of Sint-Pieter.
