Presumably, the imposing Neubourg Castle has been around since the thirteenth century. This castle is still a highlight in the idyllic surroundings of Gulpen. This walking route shows you the castle in all its splendor, but also the Gulp, which flows peacefully past Billinguizen and Euverem, and the pleasant center of Gulpen with its surprising activities, the Gulpener Bierbrouwerij and the many cozy restaurants. You follow this walking route via the black posts. Parking is possible in the center of Gulpen.
