

Romeinskwartier Heerlen - Een kijkje in het Romeins Verleden

 **Walking route**
→ **3.2 km**

Start- and endpoint

Centrum van archeologie de Vondst (Raadhuisplein 20 te Heerlen)

Level of difficulty
Makkelijk

A viewing window to the past, namely the Roman past of Heerlen, with which you describe all display cabinets that have been placed in the Roman Quarter in Heerlen-Centre. An initiative of the entrepreneurs from this area.

Each display case features a different object from Roman times. These are special artefacts from the region or exact replications of utensils from that period. Together, the display cabinets form a route through the area and along the shops and catering establishments that are located here.
