

Ingber G7 Gulpen-Wittem

 **Walking route**
→ **6.7 km**

Start- and endpoint

Rosstraat 1A, 6271 BG Gulpen,
Netherlands

Level of difficulty

Moeilijk

On this walking route to the west of Gulpen you will go quite high. This area shows you the true hill country, where the vast green fields cover the spectacular slopes and you walk on sunken roads, with a beautiful road cross here and there. Of course, there are also authentic half-timbered farms here. You follow the red posts to the hamlet of Ingber and return to bustling Gulpen, where you can easily park. Of course, a specialty beer at the De Zwarte Ruiter inn should not be missing from this real South Limburg hiking experience.
