Welcome to beautiful South Limburg, especially in the municipality of Voerendaal. Enjoy the beautiful nature of hilly South Limburg and discover a special phenomenon: limestone.

During the Kunradersteenroute you will get to know the special landscape around the cores of Mingersborg, Colmont, Winthagen, Kunrade and Ubachsberg.

The Kunradersteenroute is (just like the limekiln route) marked with posts. In this case brown-colored and equipped with Sebas shields. You start at the Bernardushoeve or at Herberg de Pintelier. Here you can also get a nice cup of coffee and parking is free.
