Fancy cycling through the Zuid-Limburg hills? The Land of Marl Cycle Route (Mergellandroute) takes you to the most beautiful places. The entire route covers over 155 kilometres, but you can also opt for a shorter stretch. This Western Loop is perfect for a day trip and explores the rolling hills between the town of Valkenburg and the Maas village of Eijsden. Along the way you will discover the typical Zuid-Limburg landscape, with its marl caves, authentic square farms, road crosses and, of course, its beautiful panoramic views. Do not hesitate to stop at one of the numerous farm shops or small stalls along the road. After all, there is an abundance of fruit orchards in this area.
