

Vijlenerbosroute 1 SBB35

Vaals

 **Walking route**
→ **5.7 km**

Start- and endpoint

Epenerbaan 1, 6291 Vaals,
Netherlands

Level of difficulty

Moeilijk

The Vijlenerbos in the municipality of Vaals is the most elongated forest area in the Netherlands, covering about 650 hectares in total. The largest part of the forest consists of parts with significant differences in height that you will undoubtedly defy during this walking route. After each steep climb you will have a beautiful view over the Geul valley, through which the fastest flowing river in the Netherlands runs. Rest and park at the Lodge7 restaurant or the Het Hijgend Hert forest café. The route can be followed via the green SBB posts.
